INDEX
VOLUME 31
1959

Page

Pot Core Assemblies, Miniature .. 306
Potentiometer, Hollow Spindle .. 368
Potentiometer Precision Decode .. 112
Potentiometer, Precision Slidewire .. 176
Potentiometers, Sub-miniature .. 238
Power Supply, Low Voltage .. 700
Power Supply Unit .. 50
Power Supply Units, Low Voltage .. 177
Power Unit, Twin D.C. .. 433
Precision Brazing Equipment .. 237
Precision Meters, Portable .. 769
Printing Counters .. 769
Radio Compass, Sub-miniature .. 52
Radar, Airborne Weather .. 624
Rectifiers, Silicon Controlled .. 501, 768
R.F. Induction Heater .. 767
Regulated Power Supplies .. 501
Relay, Miniature A.C. Chopper .. 368
Relay, Multiple .. 240
Relays, Wire Contact .. 305
Resistance-Reactance Bridge .. 111
Resistivity Measurement, Precision .. 432
Resistors, Miniature High Stability .. 239
Resistors, Wire-Wound .. 369
Scaler .. 111
Semiconductor Rectifiers .. 433
Sending Level Standard .. 564
Signal Generator, F.M.-A.M. .. 108
Silicon Controlled Rectifiers .. 768
Silicon Refining Unit .. 500
Silicon Solar Cells .. 500
Slow Motion Drive and Scale Assembly .. 178
Spectrometer, Audio Frequency .. 51
Spectrometer, Multi-Channel Pulse .. 112
Spectrometer, Superheterodyne Centimetre .. 109
Stabilized Dual Low Voltage Supply .. 700
Stabilized Power Supply .. 431
Stabilized Power Supply Unit .. 370, 698
Strain Gauge Power Supply .. 766
Switch, Low Resistance Instrument .. 176
Switching Devices .. 502
Synchro System, Low Friction .. 111
Tachometer, Capacitance Sensing .. 700
Tape Recorder, Multi-Channel .. 628
Telecommunications Equipment .. 433
Television Measuring Oscilloscope .. 306
Television Waveform Generator .. 432
Temperature Controller .. 768
Temperature Controller, Proportional .. 307
Terminal Seals .. 239
Testing Equipment, 'White Noise' .. 113
Thermometer, Electronic .. 370
Timer, Interval .. 369
Timer, Sequence .. 565
Torque Motors .. 371
Transducer, Differential Pressure .. 768
Transducer, Pressure .. 562
Transfer Function Analyser .. 562
Transform Generator, Fourier .. 431
Transformer Transducer, Differential .. 699
Transformer, Universal L.T. .. 307
Transformers, Isolating .. 238
Transformers, Regulating .. 240
Transistor Adaptors .. 502
Transistor Analyser .. 108
Transistor Regulators, 'Wattless' .. 111
Transistor Stages, Packaged .. 113
Transistor Tester .. 500, 501
Transistors, Germanium Power Transistors .. 766
Transistors, New .. 434
Transistors, Silicon .. 500
Tuners, Television Turret .. 236
Uniselector, Miniature .. 50
V.H.F. Radiotelephone .. 627
V.H.F. Signal Generator .. 701
Valve-Millivoltmeter .. 176
Valve-Voltmeter .. 305
Valve-Voltmeter, Sensitive .. 563
Valve-Voltmeter, True R.M.S. .. 237
Valveholders and Connectors .. 239
Valveholders, Right-Angle .. 239
Vibration Monitor .. 562
Vibrating Reed Electrometer .. 699
Viewing Storage Tubes, Daylight .. 110
Voltmeter, Peak .. 304
Voltmeters, Three and Four Digit .. 624
Wave Analyser .. 433
Waveguide Slotted Sections .. 626, 698
Zener Voltage Regulators .. 565

F

Ferrite Storage System, A High-Speed, by C. J. Quartly .. 756
Filter, A Multi-Range, Low Frequency Band-Pass, by, J. B. Bratt .. 458
'Fred'—A Figure Reading Electronic Device .. 45

FRENCH (Electronic Equipment and Summaries) .. 55, 115, 181, 243, 309, 373, 437, 503, 567, 631, 703, 771

G

Gas Tubes as Music Generators, by A. Douglas .. 672
Generator with Periods of Hours, A Sine-Wave, by G. Klein and J. M. den Hertog .. 320
Generators, The Design of Biased Diode Function, by C. C. Ritchie and R. W. Young .. 347

Page

GERMAN (Electronic Equipment and Summaries) .. 59, 122, 186, 249, 314, 378, 442, 507, 572, 638, 708, 776
Glass, Estimation of Depth of Blemishes in .. 203

H

H.F. Transmitters, A Development in .. 610

I

Image Convertor Equipment for the Observation of Self-Luminous Gaseous Discharges, An, by K. G. Beauchamp and A. J. Tyrrell .. 384
Input Conductance of a Grounded Base Junction Transistor, Variation of, by S. Deb and J. K. Sen .. 753

L

Logarithmic Amplifier, A Voltage Operated, by R. F. Mathams .. 463

LETTERS TO THE EDITOR .. 46, 103, 172, 232, 299, 364, 426, 496, 558, 621, 694, 761

Amplifier, A Narrow Band .. 621
Amplifier, A Feedback Electrometer .. 173
Amplifier, Tuned Transistor Audio .. 103
Capacitance-Resistance Divider, Response of a .. 232, 558
Capacitance-Resistance Divider to a Step, Exponential, and a Ramp Function, Response of a .. 46
Capacitors, Cell Effect in .. 694
Circuit, A Simple Anti-Coincidence or Coincidence .. 694
Circuit for a Reversible Dekatron Counter .. 172
Diffraction Grating Measurements .. 558
'Droop' and Low Frequency Bandwidth .. 232
Electric Motors, A Power Supply Unit for Improving Small .. 621
Electrometer Amplifiers .. 497
Electronic Digital Computer, The Physical Realization of an .. 299
Filters, Design Curves for Simple .. 233
Generator, Sampling .. 364
Induction Heater, A Crystal Controlled .. 496
Measuring the Output Impedance of a Stabilized D.C. Power Supply, A Method of .. 761
Microwave Reflectometer Display System, A .. 300
Multivibrator Circuit Using PNP and NPN Junction Transistors .. 301
Network, A Four Terminal .. 103
Noise, Analysis of Impact .. 622
Noise Limitation of the Maximum Gain-Bandwidth Product of Travelling Wave Amplifiers .. 46
Non-Linear Resistive Devices, A Graphical Design Method for .. 761
Oscilloscope with 'Frozen Feedback', Sampling .. 364
Parametric Amplifiers, Self-Quenching in Super-Regenerative .. 559
Phase-Shift Thyratron Operated from a D.C. Signal, Proportional Control Using a .. 365
Power Supplies, Stabilized .. 426
Power Supply Measurements: Temperature Measurements .. 47
Rectangular Hysteresis-Loop Magnetic Cores .. 623
Regulated Power Supplies .. 622
Stabilized Supplies, Reducing Ripple in .. 496
Teaching Aid, A New .. 300
Telephone Switchboard, A Cordless .. 232
Three-Electrode Gap, A Simple Improvement to a .. 46
Transistor Blocking Oscillators, Free Running .. 365
Transistor Characteristic Curve Tracer, A .. 623
Transistor Circuit Temperature Stability Analyses .. 695
Transistor Oscillator Circuits, Stable .. 299
Transistors, Characteristics of .. 233
Transistors, Current 'Creep' in .. 172, 497, 694
Transistors, A Regenerative Modulator Frequency Divider Using .. 427
Triode Transfer Resistance .. 426
Wageguide Components, The Electroforming of .. 623
Zener Diode Characteristics .. 559

M

Machine Tool Control, Developments in Automatic .. 486
Machine Tool Control in Yugoslavia .. 606
Magnetic Cores as Switching Elements, Rectangular Hysteresis-Loop, by J. F. Kaposi .. 278
(Letters to the Editor) .. 623
Magnetic Cores Matrices for Logical Functions, by A. L. Freedman .. 358
Magnetic Fields by Nuclear Resonance Measurement of, by G. C. Lowe .. 138
Magnetic Materials, New Varieties of .. 589
Marine Radar, A New .. 212
Matrices and their use in Transistor Circuit Analysis, An Introduction to, by J. S. Bell and K. Brewster .. 98
Medical Electronics (A Report on the Second International Conference in Paris) .. 479
Microwave Frequency Standard, A, by B. H. L. James and M. T. Stockford—
Part 1 .. 2
Part 2 .. 82
Microwave Reflectometer Display System for 7 500 to 11 000Mc/s, by J. C. Dix and M. Sherry .. 24
(Letters to the Editor) .. 300

Page

Modulator as a Phase Detector, The (A Note on the Error due to a Finite Switching Voltage Applied to a Shunt Modulator), by W. Fraser and R. E. Schemel 345

MEETINGS THIS MONTH .. 54, 114, 180, 242, 308, 566, 630, 702, 770

N

Network Analyser, A Versatile Multi-Frequency 683
Notes from North America 105
Nucleonic Instrument Factory, Extensions to 689

O

Ophitron, The 411
Oscillator, A Simple Very Low Frequency, by J. F. Young .. 218
Oscillators, Incremental Frequency Control of RC, by D. L. A. Smith 38

P

Phase and Amplitude at Low Frequencies, Measurement of, by R. J. A. Paul and M. H. McFadden 142
Phasemeter, A Low Frequency, by N. Hambley 13
Phase-Sensitive Detectors with Load, Diode, by R. Chidambaram and S. Krishnan 613
Phase-Splitting Circuits, Wide-Band Analysis of Valve, by L. J. Giacoletto 733
Physical Society Exhibition, The 108
Pictures Across the Atlantic 549
Potentiometers with Loaded Outputs, Linear Multi-tapped, by K. C. Garner 192
Power Supplies, Regulated, by D. J. Collins and J. E. Smith .. 222
(Letters to the Editor) 622
Power Transmitters at Ongar, New High 231
Precise Vector Voltage, A System for Providing a, by D. J. Collins and J. E. Smith 684
Programmed Test Set, A, by D. W. Bradfield, A. M. East and H. F. Rourke 714
Punched Cards or Continuous Punched Foil, A Sensing System of, by S. Morleigh 140

PUBLICATIONS RECEIVED .. 54, 114, 180, 242, 436, 566, 630, 702, 770

Q

Quartz Clock, A Miniature 329

R

Radar Defence System, Sweden's 598
Radar Demonstration Unit, A Mobile 93
Radar for Small Craft 267
Radar Simulator System for the Italian Army, A 35
Radio Beacons, An Electronic Clock Coder for Coded, by J. W. Nichols, A. C. MacKellar and A. J. B. Baty .. 466
Radio Station on Ascension Island, An Experimental .. 294
Radio Telephone Terminal Equipment, A Miniaturized, by E. J. Allen 288
Radiotelephone System, A Car 732
Recording System, A Multiple Channel D.C., by H. D. Scott 340
Reflex Klystrons, Wide Range Tuning Cavities for Plug-in, by R. Mather and J. Sharpe 390
Regulated Power Supply, A Small, High Voltage, by J. D. O'Toole 681
Research Laboratory, A New 680
Resistor, The Total Excursion (A New Concept), by R. H. W. Burkett 393
Ring Counter, A New Type of, by P. J. Westoby 295

S

Saturated-Diode Filaments, Surface Structure of, by F. A. Benson and M. S. Seaman 40
Semiconductor Factory Extensions 351
Semiconductor Production 758
Semiconductors, Compound, by D. A. Wright 659
Ship Hydrodynamics Laboratory, A 658
Silicon Rectifier Equipment, A High Power 462
Simultaneous Transmissions from One Aerial, Four (The BBC V.H.F., F.M. Transmitting Station at Sandale, Cumberland, by F. D. Bolt 168

Page

Stabilized D.C. Supplies, The Design of Thyratron, by B. G. Higdon and M. E. Bond 475
Square Loop Magnetic Cores in Circuits, Approximate Methods for Calculating the Behaviour of, by D. A. H. Brown 408
Stroboscopic Method of Making Frequency Response Measurements on Small Electromechanical Devices, A, by M. Shepherdson and R. Walters 220

SHORT NEWS ITEMS .. 53, 104, 171, 241, 308, 372, 435, 495, 556, 617, 693, 762

T

Teaching Aid, A New 75
(Letters to the Editor) 300
Telegraph Receivers, A Modern Frequency Shift, by E. J. Allen 161
Telemetering Employing the Principle of the Gas-filled Stepping Tube, by Yoshisuke Hatta 227
Telephone Switchboard, A Cordless 41
(Letters to the Editor) 232
Television Equipment for Advertising Agencies, Closed Circuit 203
Television Engineering (A Report on the British Institution of Radio Engineers Convention) 484
Television in Automobile Research 165
Television News Films by Transatlantic Telephone Cable .. 616
Television Wave Generator Using Transistors, A, by F. Rozner 8
Thermoelectric Cooling 690
Tool Cutting Forces, An Equipment for Measurement of, by J. Goldberg 726
Transducers which have an Exponential Response, A Method of Reducing the Time Lag of, by L. Whitlow and M. J. Porter 536
Transistor Amplifier for Magnetic Tape and Drum Playback, by A. E. Bachmann 213
Transistor Amplifiers, Local Feedback in, by H. Pfyffer .. 550
Transistor Bias Design from Thermal Incremental Properties, by L. M. Vallese 88
Transistor Blocking Oscillator for Use in Digital Systems, by Agnes A. Kaposi 480
Transistor Blocking Oscillator Frequency Divider, A, by F. Butler 611
Transistor Characteristic Curve Tracer, A, by J. F. Young .. 330
(Letters to the Editor) 623
Transistor Circuits for a 1Mc/s Digital Computer, by I. Krajewski 403
Transistor Cut-off Frequency, Accurate Measurement of, by Yasuo Tarui 284
Transistor Decade Counter, A 1Mc/s, by C. G. Bradshaw .. 96
Transistor during Turn-off in the Active Region, The Charge Storage in a Junction, by R. S. C. Cobbold 275
Transistor Filter Synthesis, High Frequency, by L. M. Vallese 748
Transistor Invertors and Rectifier-Filter Units, by F. Butler .. 412
Transistor Push-Pull D.C. Convertors, The Design of, by W. L. Stephenson, L. P. Morgan and T. H. Brown .. 585
Transistor r-Parameters from h-Parameters, Charts for Deriving, by G. W. E. Stark 592
(Erratum) 763
Transistor Scaling Circuit with a Short Resolving Time, A, by B. Collinge 604
Transistor Stimulator for Physiological Use, A, by R. E. George 530
Transistor Tester, A Simple, by G. G. Yates 602
Transistorized L.T. Regulator, A, by J. H. Deichen 688
Transistors, A Domestic F.M. Receiver using Diffused Base Mesa, by M. Applebaum and E. Midgley 448
Transistors and Cores in Counting Circuits, by F. Rozner and P. Pengelly 272
Transistors and Saturable-Core Transformers as Square Wave Oscillators, by G. C. Fleming 543
Transistors, Avalanche (An Appraisal of their Properties and Uses), by R. C. V. Macario 262
Transistors, International Convention and Exhibition on .. 298
Transistors, Regenerative Modulator Frequency Divider Using, by F. Butler 72
Transmission-Lines and their Errors, Approximate Models for, by R. R. Vierhout 94

V

Vacuum, All-Metal Bakeable Taps for High, by N. W. Robinson 759

Page

Vectorscope Unit, A, by K. G. Freeman 655
Vibrating-Head Scanner for Inspection and Indexing of Magnetic Recordings, A, by J. S. Gill 30
Vibration Amplitude, Measurement of 287
Vibration Amplitudes, Measurement of, by R. A. S. Kay .. 154
Voltage Controlled Continuously Variable Low-Pass Filter, A, by A. J. Seyler and A. Korpel 16
Voltmeter, A Three Digit 229

W

Waveforms, The Recording and Collocation of, by R. J. D. Reeves—
Part 1 130
Part 2 204
(Letters to the Editor) 364
Waveguide as a Long Distance Communication Medium, by A. E. Karbowiak 520
Waveguide Components, The Electroforming of, by P. Andrews 150
(Letters to the Editor) 623
Waveguide Switches and Branching Networks, by J. W. Sutherland 64
Waveguide Transforming Sections, Frequency Compensation for Simple Stepped, by D. Wray 76
